

Plastic Pollution in our Waterways Why Australia should care

\$20+ Billion to replace aged & **crumbling infrastructure** across Australia.

US business case

“The more you pave the more you pay”

Federal Government

Cost to Fed gov – seed funding \$50K for a feasibility study per applicable council

Plastic pollution entering Aust waterways and Oceans.
1,500 kgs every hour into Aust oceans

Stormwater Shepherds

- 1. Action:** facilitate riparian clean-ups
- 2. Education:** Build positive change through awareness campaigns
- 3. Advocacy:** For sustainable stormwater infrastructure

Federal Government

Endorse national standards for stormwater management for adoption by all states & territories. Developed by water authorities across Aust.
